MEMORANDUM TO FILE

TO: File

CC: Pamela Knotts, Regulatory Policy Administrator

FROM: Shona Marshall, Public Utility Analyst 

SUBJECT: In The Matter of the Application Of Comcast of Delmarva, Inc. For a Change to Its Basic Service Tier ("BST") Cable Television Rates and Necessary Equipment and Installation Charges In the Unincorporated Areas of Sussex County – CUID #0079 (Filed October 1, 2014) - PSC Docket No. 14-0432

On October 1, 2014 Comcast of Delmarva, Inc. ("Comcast") filed an application (the "Application") with the Delaware Public Service Commission ("Commission") seeking adjustments to the maximum permitted rates that Comcast may charge its subscribers for its basic service tier ("BST") cable service, related equipment rentals, and installation services by applying the rate regulation rules and methodologies adopted by the Federal Communications Commission ("FCC").

On December 4, 2014 the Commission conducted a public hearing on the application and based on the evidence presented the Commission Staff determined that Comcast's proposed rate adjustments, as they appear on the filed FCC Forms 1205 and 1240, have been calculated in accordance with FCC regulations and recommended that the proposed rate adjustments be approved for services on and/or after January 1, 2015. In Order No. 8684, the Commission approved the maximum permitted rates for basic service tier cable service, related equipment rentals, and installation services offered by Comcast in the areas within Community Identifier Unit Number DE0079 for Unincorporated Areas of Sussex County.

On December 22, 2014 the Company filed a rate adjustment sheet indicating the rates that its customers will be charged for the basic service tier cable service, related equipment rentals, and installation services effective February 1, 2015. Staff has reviewed the rates and has determined that they do not exceed the maximum permitted rates approved by the Commission on December 4, 2014.
